

# CONSORT 2010 Flow Diagram

## Enrollment

Referred by recruiters (n = 204)  
Self-referred to study (n = 46)

Excluded (n = 98)

- Declined to participate (n = 10)
- Could not contact (n = 49)
- No suitable time (n = 13)
- Did not want baby filmed (n = 3)
- Did not attend or reschedule (n = 6)
- Medical problem (n = 5)
- Partner refused (n = 2)
- Recruiter issue (n = 10)

Randomized (n = 152)

## Allocation (age 6 months)

Allocated to intervention (n = 74)

- Received allocated intervention (n = 74)
- Did not receive allocated intervention (n = 0)

Allocated to control (n = 78)

- Received allocated intervention (n = 78)
- Did not receive allocated intervention (give reasons) (n = 0)

## Follow-Up (age 12 months)

Lost to follow-up (could not contact) (n = 5)  
Discontinued intervention (too busy, not interested) (n = 3)

Lost to follow-up (could not contact) (n = 1)  
Discontinued intervention (app malfunctioned, too busy) (n = 3)

## Analysis

Included primary analysis:

Unadjusted (n = 66)

- Did not provide outcome data (n = 8)

Adjusted (n = 52)

- Did not provide outcome data (n = 8)
- Provided outcome data, but no baseline PRF data (n = 14)

Included primary analysis:

Unadjusted (n = 74)

- Did not provide outcome data (n = 4)

Adjusted (n = 61)

- Did not provide outcome data (n = 4)
- Provided outcome data, but no baseline PRF data (n = 13)
